Committees To assist with its responsibilities, the board of directors has an audit committee and a compensation committee appointed from among its members. The duties and responsibilities of audit committee are described below, as well as on the Bucher website in the summary of the internal rules of organisation (Rules of Organisation), those of the remuneration committee in the remuneration report on pages 54 to 61 of this annual report. The committees report to the board of directors on their activities, results and proposals. The board has overall responsibility for the duties assigned to the committees. Committee members hold office on an annual basis from one annual general meeting until the next annual general meeting. Proceedings and resolutions of committee meetings are recorded in minutes. www.bucherindustries.com/en/investor-relations/corporate-governance

Audit committee On 14 April 2015, the composition of the audit committee was confirmed by the board of directors as follows: Heinrich Spoerry, chairman, Ernst Bärtschi and Michael Hauser. All of its members are non-executive and independent. The audit committee meets at least three times a year. A meeting generally lasts half a day. The chairman of the board, CEO and CFO attend the meetings in an advisory capacity. Depending on the items on the agenda, the internal or external auditors, members of group, division and segment management or specialists are consulted. Four meetings were held last year. The members of the audit committee, the chairman of the board, the CEO and CFO were present at all the meetings. In the reporting year, the meetings focused on the analysis of cyber-security risks, the categorisation of intangible assets, and on the following scheduled duties. The audit committee prepares a comprehensive and efficient group audit concept, proposes it to the board of directors and then monitors its implementation. It determines key areas of the audit plan for the external and internal audits, receives reports from the auditors and appoints the head of the internal audit function, who reports to the chairman of the audit committee. For a preliminary decision, the audit committee evaluates the independence and performance of the external and internal auditors and finally determines the level of their remuneration. The audit committee's role includes preparing the board's proposal for the appointment of the auditors, reviewing the organisation of the accounting system, ensuring the Group's financial controls and financial

planning and reviewing the plans, budgets and financial statements of the Group and its group companies, including individual projects involving significant commitment of capital. In the reporting year, the external audit plan focused on the areas of production and warehousing. The external auditors also focused on in-depth assessment of internal controls in the areas of IT controls and authority and responsibility reporting at company level. The external auditors attended two meetings of the remuneration committee. Internal audit carries out audits in the Group in accordance with the audit concept proposed by the audit committee and determined by the board. The chairman of the audit committee agrees the audit programme with the chairman of the board. The coordination and implementation of audits is delegated to the CFO. The internal audit work is contracted out externally. The head of internal audit function reports to the chairman of the audit committee. The internal audit function reports the results of its audits to the audit committee at a minimum of one meeting each year. The internal audit plan focused on comprehensive verification and evaluation of the internal control system processes at several group companies as well as the analysis of cyber-security risks. In the year under review, three meetings took place with the internal auditors.

Compensation committee Information about the remuneration committee is shown in the remuneration report, see pages 54 and 61 of this annual report.

Authority and responsibility The board has delegated the Group's operational management to the CEO, the CFO and other group management members. Their authority and responsibilities are set out in the internal rules of organisation. An abridged version of the rules of organisation is available as a PDF document on the Bucher website. The board oversees the operational management. www.bucherindustries.com/en/investor-relations/corporate-governance

Information and control systems relating to group management As part of the management information system, the board receives monthly key figures, consolidated financial statements and management comments from group management, providing information on operational performance and performance indicators within the Group, divisions, segments and major group companies. At each meeting, the board is also informed about the course of business, important projects and risks. Once a year, it conducts an in-depth assessment of the Group's risk situation on the basis of a risk report prepared under the direction of the CEO, with the participation of members of group management and group services. Written proposals are prepared under the direction of the CEO for any major projects requiring a board decision. In addition to the chairman, one member of the board can attend each of the annual divisional strategy reviews, which are led by the CEO, in order to gain greater insight into the business. In the reporting year, the chairman of the board took part in four strategy meetings, accompanied at the reviews by a further member of the board on three occasions. The board of directors is also supported in its supervisory and control function by internal audit and the external auditors.

Shareholders' participation rights

Shareholders' rights with regard to remuneration are detailed in the remuneration report on pages 54 to 62 of this annual report.

Voting rights and representation restrictions There are no restrictions on voting rights or proxy voting.

In the reporting year, the annual general meeting of 14 April 2015 elected Mathé & Partner, Attorneys-at-Law, Riesbachstrasse 57, 8034 Zurich, Switzerland, to the office of independent proxy holder, which the firm will hold until the next annual general meeting. Art. 8 of the company's articles of association stipulates that every shareholder with voting rights can issue written or electronic proxy to arrange representation at the annual general meeting by the independent proxy holder.

Issuing instructions to the independent proxy holder Bucher Industries AG's articles of association have no provision regarding the procedure for issuing instructions to the independent proxy holder. The board of directors determines, within the scope of legal provisions, the requirements relevant to proxies and instructions and can stipulate specific regulations. Details of such stipulations are provided with the invitation to the annual general meeting.

In the reporting year, every shareholder received, along with the invitation to the annual general meeting, a form for the purpose of issuing proxy, in writing or online, arranging representation at the annual general meeting by the independent proxy holder.

Instructions were restricted to approval, rejection or abstention on each of the proposals. For additional proposals or amendments shareholders were able to issue a global instruction to approve, reject or abstain from the respective proposal of the board of directors.

Required quorums Resolutions at general meetings of shareholders are passed by an absolute majority of the votes of the shares represented. At least two-thirds of the votes represented and an absolute majority of the par value of the shares represented are required for special resolutions as prescribed in art. 704 par. 1 of the Swiss Code of Obligations.

Convocation of the general meeting of shareholders There are no rules that differ from the law for the convocation of general meetings of shareholders. As provided in the articles of association, notice of a meeting is given to shareholders at least 20 days before the meeting. The notice convening the meeting sets out the agenda and resolutions to be proposed by the board and by shareholders who have requested an item to be added to the agenda. According to the articles of association, the board of directors determines the date for registration of shareholders in the share register and announces the date in the invitation. As a rule, it is stipulated that shareholders must be registered three working days before the date of the meeting. Extraordinary general meetings are called as and when required, in particular in the cases provided by law. Shareholders representing at least one tenth of the share capital may at any time request that a meeting be convened, stating the business to be transacted and resolutions proposed.

Requests for additions to the agenda Shareholders representing shares with a combined par value of CHF 20 000 may request that an item be added to the agenda. Requests for additions to the agenda must be submitted at least six weeks before a general meeting of shareholders.

Obligation to make an offer and clauses on changes of control The annual general meeting of shareholders held on 26 April 2005 adopted an opting-up clause in the articles of association, requiring a purchaser of shares to make a public tender offer when reaching or crossing the threshold of 40% of the voting rights in accordance with the Federal Stock Exchange and Securities Trading Act.
