Elections and terms of office Directors are elected individually for staggered three-year terms. They are required to retire no later than at the first annual general meeting of shareholders after reaching the age of 70. The articles of association place no other restrictions on tenure. Claude Cornaz and Heinrich Spoerry were re-elected to the board last year. The board elected Rolf Broglie as chairman and Anita Hauser as deputy chairman to serve from the annual general meeting on 12 April 2012.

Internal organisation The board determines the strategic direction and oversees the management of the company as provided in the Swiss Code of Obligations, in the articles of association and internal rules of organisation, an abridged version of which is available at <http://www.bucherindustries.com/en/node/6621>. It meets as often as business requires, holding at least six scheduled meetings each year, which generally take place every two months. The meetings are usually attended by the CEO, the CFO and by other members of

group management, members of division and segment management or specialists, depending on the items on the agenda. The secretary to the board takes minutes of the proceedings and resolutions. The meetings usually last one day; the annual strategy meeting lasts two days. Seven board meetings and one conference call were held in the reporting year. One member was absent at each of three meetings: in one case due to illness, in another for family reasons, and on a third occasion for professional reasons. On the occasion of the conference call, two members were excused because of inadequate telecommunications links. Otherwise, all the meetings in the reporting year were attended by all board members, the CEO and the CFO.

Committees To assist with its responsibilities, the board of directors had an audit committee and a human resources committee appointed from among its members. The roles and responsibilities of the audit and human resources committees are described below and are published in the condensed version of the rules of organisation on the company's website at <http://www.bucherindustries.com/en/node/6621>. The committees report to the board of directors on their activities, results and proposals. The board has overall responsibility for the duties assigned to the committees. Committee members hold office on an annual basis from one annual general meeting until the next annual general meeting. Proceedings and resolutions of committee meetings are recorded in minutes.

Audit committee On 12 April 2012, the composition of the audit committee was confirmed as follows: Ernst Bärtschi, chairman, Michael Hauser and Heinrich Spoerry. All of its members are non-executive and independent. The audit committee holds at least three meetings a year, each usually lasting half a day. The chairman of the board, CEO and CFO attend the meetings in an advisory capacity. Depending on the items on the agenda, the internal or external auditors, members of group management, members of division and segment managements or specialists are consulted. The committee met three times last year. The meetings focused on the following scheduled duties. The audit committee prepares a comprehensive and effective audit programme for the Group and oversees its implementation. It determines key areas of the audit plan for the external and internal audits, receives reports from the auditors and appoints the head of the internal audit function, who reports to the chairman of the audit committee. For a preliminary decision, the audit committee evaluates the independence and performance of the auditors and finally determines the level of their remuneration. The audit committee's role includes preparing the board's proposal for the appointment of the auditors, reviewing the organisation of the accounting system, ensuring the Group's financial controls and financial planning and reviewing the plans, budgets and financial statements of the Group and its group companies, including individual projects involving significant commitment of capital.

Human resources committee On 12 April 2012, the composition of the human resources committee was confirmed as follows: Since the annual general meeting held on 14 April 2011, the human resources committee has been composed of Rolf Broglie, chairman, Thomas W. Bechtler and Anita Hauser. It holds at least one meeting each year, usually lasting half a day. The CEO attends the meetings in an advisory capacity, except when his own remuneration is being determined. Three meetings were held last year. These focused on reviewing the remuneration of the members of group management, succession planning for senior management, as well as the following scheduled duties. The human resources committee makes proposals to the board regarding the Group's remuneration policy for directors and members of the group management. It submits a proposal to the board for the annual

remuneration of directors and the CEO, determines the remuneration of the other group management members and takes note of the remuneration of division and segment management members. In addition, it prepares the medium- and long-term succession planning for directors and group management members. It proposes a policy to the board concerning for the selection of candidates for appointment as directors and members of the group management and prepares the selection applying these criteria.

Authority and responsibility The board has delegated the Group's operational management to the CEO and group management members. Their authority and responsibilities are set out in the internal rules of organisation. An abridged version of the rules of organisation is available as a PDF document on the Bucher Industries website at <http://www.bucher-industries.com/en/node/6621>. The board oversees the operational management.

Information and control systems relating to group management As part of the management information system, the board receives monthly key figures, consolidated financial statements and management comments from group management, providing information on operational performance and performance indicators within the Group, divisions, segments and major group companies. At each meeting, the board is also informed about the course of business, important projects and risks. Once a year, it conducts an in-depth assessment of the Group's risk situation on the basis of a risk report prepared under the direction of the CEO, with the participation of members of group management and group services. Written proposals are prepared under the direction of the CEO for any major projects requiring a board decision. In addition to the chairman, one member of the board can attend each of the annual divisional strategy reviews in order to gain greater insight into the business. In the reporting year, the chairman of the board took part in all four strategy meetings, accompanied by a further member of the board on each occasion. The board of directors is also supported in its supervisory and control function by internal audit and the external auditors. Internal audit carries out audits in the Group in accordance with the audit concept proposed by the audit committee and determined by the board. The chairman of the audit committee agrees the audit programme with the chairman of the board. Responsibility for coordinating and implementing audits is delegated to the CFO. The internal audit work is contracted out externally. The head of internal audit function reports to the chairman of the audit committee. The internal audit function reports the results of its audits to the audit committee at a minimum of one meeting each year. In the year under review, one meeting took place with the internal audit. The audits focused on processes and controls within the framework of the internal control system, on compliance with the Code of Conduct, as well as on reviews of cost calculations.
